

Marktspiegel MES

Im Internet komplett neu mit IloT-/14.0-Merkmalen

Der Marktspiegel MES 2018/2019 gibt in der folgenden Tabelle einen ersten, schnellen Überblick über das aktuelle, umfangreiche MES-Marktangebot. Als Ergänzung stehen im Internet die vollständigen, detaillierten Leistungsprofile aller Systeme als interaktive Checkliste auf der Website vom MES D.A.CH. Verband e.V. unter www.mes-dach.de zur Verfügung. Die Checkliste ist in Anlehnung an die VDI-MES-Richtlinie 5600 und ergänzende IloT-/14.0-Merkmalen komplett neu strukturiert. Anwender können die Checkliste auf vielfache Weise kostenlos nutzen:

- Volltextsuche geeigneter Systeme nach Ihren Stichworten über die vorhandenen Anbieter- und Systeminformationen.

- Nutzung der Checkliste zur individuellen Favoriten-Auswahl, d.h. direkt online Ihre Anforderungsprofile erstellen und mit den Leistungsprofilen der angebotenen Systeme vergleichen.
- In Balken-, Stern- und Ampelgrafiken gezielte Analysen vornehmen und sogar vorhandene Lösungen in den Vergleich einbeziehen. Alles gemessen am eigenen, individuellen Anforderungsprofil.
- Gezielte, hocheffiziente Informationsbeschaffung anhand der 'Info-Cockpits' zu jedem Leistungsprofil mit direkten Anbieter-Links, -Downloads und einer integrierten Anfragefunktion.

Wir wünschen Ihnen viel Erfolg bei Ihrem persönlichen MES-Vergleich!
